

Earthquake Survival Checklist

- ☑ Be sure to have an emergency kit with extra food, water, first aid, batteries and other essentials
- ☑ Make sure your water heater is secured
- ☑ Familiarize yourself with gas and water shut off valves and install an automatic gas shut off valve.
- ☑ Secure tall furniture to the walls
- ☑ Keep heavy objects and frames away from your bed
- ☑ Make sure you know the safe places to take cover in an earthquake
- ☑ Have an outside family meeting place
- ☑ Have a designated phone number out of area to let family know of your status
- ☑ Keep a flashlight near where you sleep... earthquakes can happen at night.

Reliable Earthquake Insurance

Peace-of-mind if disaster strikes

You never know when the next earthquake will hit.

California has a long history of earthquakes, so protecting your home and possessions is essential. With Earthquake Insurance from Fidelity you can rest easier knowing that your valuables will be covered.

Earthquake vs Homeowners

Don't make the mistake of assuming your Homeowners or Condo policy includes earthquake coverage. It doesn't.

These policies specifically exclude losses caused by earthquakes, so to adequately protect your home you need to add this valuable coverage.

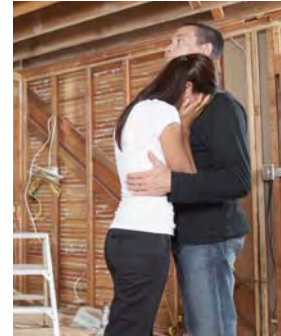

A Better Deductible

With many earthquake policies you are forced to accept high deductibles. This means if an earthquake damages your home and its contents, you will find yourself covering the bulk of the expenses. With Fidelity Earthquake Insurance, you can lower your deductible to as little as 5% (not available in all areas. Please check with your local Fidelity agent).

A Better Option

Fidelity offers you the option of a Preferred policy with superior coverage and optional deductibles, or the extra value of an Enhanced policy for the budget-minded. If you have a Condo instead of a free standing home, Fidelity has a policy that is just for you. Please discuss the details of each policy and your specific needs with your local Fidelity agent so that if the ground starts shaking you can have rock solid confidence that your home and valuables will be covered.

What Does Earthquake Insurance Do For You?

When the earth moves it can damage the foundation, crack walls and windows and destroy your prized possessions. With Fidelity Earthquake Insurance you can replace damaged valuables and repair devastating home damages.

Family Security Assessment

Because your financial status can change over time it is important to make sure your protection keeps pace with your lifestyle. With our help you can make sure you have the right coverage that fits your needs.

So be sure to inform your agent when there are changes in your circumstances, such as purchasing new valuables or furnishings, or remodeling your home.

As part of our commitment to your satisfaction and protection, your Fidelity agent pledges to:

- Provide reliable insurance protection
- Offer friendly, knowledgeable service
- Respond quickly to your needs
- Work hard in your best interest, now and in the future
